DEAR RICH,

YOUR ARTICLE ON 1803  $\frac{1}{2}$  CONTAINS A SMALL MISSTATEMENT. UNTIL READING THE ARTICLE I WAS NOT AWARE OF YOUR "CURIOUS CONUNDRUM" NOR HAD I SEEN THE COIN IN PHOTO 3. THE OTHER SPECIMENS ARE "OLD FRIENDS".

THERE ARE TWO SPECIMENS NOT IN YOUR ARTICLE WHICH I THINK YOU SHOULD NOTE

① THE SPECIMEN PHOTOGRAPHED IN MY 2ND EDITION - IS IT BEEN STATE (BS) VII? OR IS IT BS VII  $\frac{1}{2}$  OR IS PHOTO 4 BS VII  $\frac{1}{2}$  IN SHORT BS = BS (ANOTHER DEFINITION)

② BOB YUELL HAS A SPECIMEN YOU MUST SEE WHICH IS BETWEEN PHOTO 1 AND PHOTO 2 AND IS NOT LISTED AS A STATE IN THE "BS BOOK" - I WON'T DESCRIBE IT AS I WOULD LIKE TO <sup>KNOW</sup> ~~HEAR~~ YOUR OBSERVATIONS ON IT.

AS FAR AS YOUR "CURIOUS CONUNDRUM" IS CONCERNED I BELIEVE THE DIFFERENCES CAN BE ATTRIBUTED TO WEAR ON THE COINS. TO BE ABSOLUTELY SURE OF DIE DETERIORATION COINS IN EF OR HIGHER CONDITION ARE NECESSARY. WITH THIS PARTICULAR CUD IT IS THE HIGHEST POINT ON THE REVERSE AND SUBJECT TO THE HIGHEST AMOUNT OF WEAR.

SINCERELY,

Boyer

Ray

Here's 2500 partial payment, and  
full apologies for the delay. Please  
forgive me. I was trying to work  
out the cash problem and lost  
sight of the deadline.

I also enclose my dog - but not -  
altogether - ugly C-6a of '94 for  
your consideration.

Best regards

Rich Leonard

IN BRIEF: 2/16/89

Here's the pg #6

and the Article

Dear Roger

I was distressed to learn of  
your illness recently and have  
a suggestion concerning possible  
cause/diagnosis:

Is it possible that having  
been part a certain number  
unhappy, obviously, hispanic  
individual at any time in the  
recent past you were bitten  
by one of the beetles, the swelling  
of which I wouldn't at all  
about which you tell such  
expressively funny stories and

which surely infect the  
person of said western  
magistrate? If so I'll  
give him down to his standards!

Love all, do get well  
quickly. We need you back  
in full force!

Travelling,

Rob
